## 7. Acknowledgements

The authors would like to thank Jorge del Val Santos for the cVAE idea and implementation, Kristoffer Sjö, Martin Singh-Blom and Linus Gisslén for their work in developing the V2F model, and Paul Greveson and York Schueller for help with animation handling and visualization. We would also like to thank Etienne Danvoye for the mesh vertex loss idea, Hau Nghiep Phan for the M2R model idea, Jim Preston for help with training data, Jim Royal for the accompanying video, Timur Solovev for infrastructure support, and Judith Bütepage and Taras Kucherenko for proofreading and paper improvements. Finally, we would like to thank our colleagues at EA for participating in the user study.
