Machine Learning Methods in Visualisation for Big Data

Brno, Czech Republic
June 4, 2018

Tutorial Chairs
Ian Nabney, Aston University, UK
Jaakko Peltonen, University of Tampere, Finland
Daniel Archambault, Swansea University, UK

Proceedings Production Editor
Dieter Fellner (TU Darmstadt & Fraunhofer IGD, Germany)
Sponsored by EUROGRAPHICS Association

DOI: 10.2312/mlvis.20182011
Table of Contents

Table of Contents ........................................................................................................... iii

Panning for Insight: Amplifying Insight through Tight Integration of Machine Learning, Data Mining, and Visualization ................................................................. 1
Benjamin Karer, Inga Scheler, and Hans Hagen
