

# Questionnaire for the Evaluation of Software for the Graphical Modeling of Procedural Geometry

Dear study participant,

The purpose of this questionnaire is to assess the usability of the presented software. By completing it, you are enabling us to identify and remedy any shortcomings, with the aim of enhancing the user-friendliness. The questionnaire contains statements about the usability of software products. Please indicate the extent to which you agree or disagree with each of these statements, making use of the provided scale in each case. Regard the following example:

		Strongly disagree			So-so			Strongly agree	
		1	2	3	4	5	6	7	No opinion
0.	This software is a useful tool.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Comment:									

If you think the presented statement is true, then mark the column “7” for “**Strongly agree**” with an X. If you cannot agree with this statement, then mark column “1” for “**Strongly disagree**”. All numbers between these two poles represent a gradual degree of agree- or disagreement. If for some reason you cannot or do not wish to reply, you should mark the last column “**No opinion**” with an X. Additionally, you can comment on each rating in the according field following each statement.

If you accidentally rated a statement wrong, please cancel your old rating out and mark your new one with an X.

All given information will be handled confidentially and will be evaluated anonymously.

Thank you very much for your cooperation!
