

Correction to “Efficient Modeling and Rendering of Iridescence from Cholesteric Liquid Crystals”

Fourneau, Gary, Pascal Barla, and Romain Pacanowski. 2025. ‘Efficient Modeling and Rendering of Iridescence from Cholesteric Liquid Crystals’. The Eurographics Association. <https://doi.org/10.2312/SR.20251196>

Added Acknowledgements:

We thank Bruno Frka-Petesic and Kévin Vynck for fruitful discussions on the optics of cholesterics. This work has been funded by the Inria Exploratory Action EcOptics.

We apologize for this error.
