Eurographics TMRF

Guideline

1. There are three types of Technical Meeting Request Forms (TMRFs) by Eurographics, the
   
   - Eurographics TMRF for standard Eurographics Workshops and Symposia (this one)
   - Eurographics/ACM SIGGRAPH cosponsoring TMRF
   - Eurographics/IEEE vgtc cosponsoring TMRF.

2. This guideline gives additional information which may help to fill the form. More comprehensive information can be found in the Eurographics Workshops and Symposia Handbook.

3. Section B: This means the URL of the homepage of the event.

4. Section C: It should be checked for whether conflicts with other conferences of the field are avoided.

5. Section D: This is the institution which takes over the responsibility for the conference, including the financial liability.

6. Section E: The general chairs are the contact persons with respect to the organization of the conference. Usually one of them is a member of the organizing institution. At least one general chair is required.

7. Section F: The programme chairs are responsible for the scientific content of the event. At least one programme chair is required.

8. Section G: In-cooperation with an association means an involvement of the association without financial liability.

   According to an affiliation agreement, a Eurographics event can be organized in-cooperation with ACM SIGGRAPH. One advantage is that the proceedings, if any, can be made accessible in the ACM Digital Library. If in-cooperation with ACM SIGGRAPH is necessary or desired, an ACM in-cooperation TMRF has to be submitted to the ACM headquarters. This form is available on http://www.acm.org/sig_volunteer_info/conference_manual/incooptmrfform.htm.

   Hints on filling the ACM in-cooperation TMRF are given in section 4.7 of the Eurographics Workshops and Symposia Handbook.

9. Section H: The call for papers should comprehend the names of the members of the programme committee.

10. Section I: Information on the services offered by Eurographics is available as follows:

    - E-payment and Registration Service: Contact: epayment-support@iee.org.

   The costs for using those services should be taken into account in the budget of the event. For details see Sections 4.3 and 4.4 of the Eurographics Workshops and Symposia Handbook.

Eurographics TMRF

September 2007
11. Section J: For details see section 4.4 of the Eurographics Workshops and Symposia Handbook.

The budget conference fee is the income to the budget of the event from the conference fees paid by the participants of the event. It is equal to the fees paid by participants being EG members. All other participants, except members of cooperation associations if agreed by Eurographics, pay a higher fee which includes a non-Eurographics-membership differential. The non-Eurographics-membership differential goes to Eurographics and thus must not be part of the budget.

12. Section K: The most important policies are subject of the sections 4.4 (The budget plan), 4.7 (ACM in-cooperation TMRF), 4.10 (Reports) and 4.11 (Invoices) of the Eurographics Workshops and Symposia Handbook.

13. The filled Eurographics TMRF has to be submitted to the Chair of the Eurographics Workshops and Symposia Board, preferably by email, workshop-board-chair@eg.org

The postal address of the current chair is

Heinrich Müller, University of Dortmund, D-44221 Dortmund, Germany, Fax: +49 231 755 6321.
Eurographics TMRF - Section 1: Event Data

A. Acronym and Full Title of Meeting: EG-3DOR Eurographics 2011 Workshop on 3D Object Retrieval

B. URL: www.global-edge.titech.ac.jp/3DOR2011

C. Conference Dates and Location: April 10th, 2011, Llandudno (UK)

D. Organizing institution: Tokyo Institute of Technology, Japan

E. Event Chairs:
   Name: Hamid Laga
   Affiliation: Global Edge Institute, Tokyo Institute of Technology
   Address: Meguro-ku, Ookayama 2-12-1-S6-9, Tokyo 152-8552
   E-mail: hamid@img.cs.titech.ac.jp  phone: +81-3-5734-3776
   Eurographics member: no

   Name: Tobias Schreck
   Affiliation: Technische Universitaet Darmstadt, FG GRIS
   Address: Fraunhoferstr. 5, 64283 Darmstadt, Germany
   E-mail: tobias.schreck@gris.informatik.tu-darmstadt.de  phone: +49 6151 155-125
   Eurographics member: no

F. Programme Chairs:
   Name: Alfredo Ferreira
   Affiliation IST/Technical University of Lisbon, Portugal
   E-mail: alfredo.ferreira@inesc-id.pt  Eurographics member: yes / no

   Name: Ioannis Pratikakis
   Affiliation: IIT / NCRS Demokritos, Greece
   E-mail: ipratika@iit.demokritos.gr  Eurographics member: yes / no (No. 6128)

   Name: Afzal Godil
   Affiliation: National Institute of the Standards and Technology, USA
   E-mail: godil@nist.gov  Eurographics member: yes / no

G. Cooperating Organizations:

   Cooperation with ACM SIGGRAPH: Yes / No
   If yes, the filled ACM in-cooperation form has to be attached.

   Other cooperating organizations:

   Eurographics TMRF

Eurographics TMRF – Section 2: Eurographics services

1 Request for Eurographics services:

   Proceedings published by EG Publishing: Yes
   If yes, number of copies: 35

   EG Submission and Reviewing Management System SRM: Yes
   EG E-payment and Registration Service: Yes
Eurographics TMRF – Section 3: Budget Data

J. Budget:

Total Revenue Budget: __6159,80 €_______

Total Expense Budget: __5107,58 €_______

Conference fee of a non-student EG-member: 200€ / 240€ (early / late): only workshop_____

Conference fee of a student EG-member: 155€ /195€ (early / late): only workshop_____

Conference fee of a non-student non-EG-member: 290€ /330€ (early / late): only workshop_____

Conference fee of a student non-EG-member: 200€ / 240€ (early / late): only workshop_____

Discounts for booking in conjunction with EG registrations: 20 Euro for early, 30 Euro for late registration

Budget plan: to be attached
Eurographics TMRF – Section 4: Statement of Understanding

K. We accept the Eurographics event policies documented in chapter 4 of the Eurographics Workshops and Symposia Handbook.

For Fraunhofer Institute for Computer Graphics Research (Name of Organization) 25.06.2010 (Date)

By Dieter Fellner (Print Name) (Signature)

Event Chairs (Hamid Laga) (Tobias Schreck)
3D Object Retrieval Workshop Series

3D object representations have become an integral part of modern computer graphics applications, such as computer-aided design, game development and film production. At the same time, 3D data have become very common in various domains such as computer vision, computational geometry, molecular biology and medicine.

Indeed, the rapid evolution in graphics hardware and software, in particular the availability of low cost 3D scanners and modeling tools, has greatly facilitated 3D model acquisition, creation, and manipulation, giving the opportunity to a large user community to experience applications using 3D models. As the number of 3D models is growing rapidly, the problem of creating new 3D models has shifted to the problem of searching for existing 3D models. Thereupon, the development of efficient search mechanisms is required for the effective retrieval of 3D objects from large repositories.

The aim of the 3DOR Workshop series is to stimulate researchers from different fields such as Computer Vision, Computer Graphics, Machine Learning and Human-Computer Interaction who work on the common goal of 3D object retrieval, to present state-of-the-art work in the field. This will provide a cross-fertilization ground that will stimulate discussions on the next steps in this important research area. 3DOR 2011 will take place as the fourth workshop in this series on April 10, 2011 in Llandudno (UK), on the day before Eurographics 2011.

Call for Papers, Posters and System Demonstrations

Authors are invited to submit original and unpublished research and practical applications in all areas of 3D Object Retrieval. Submissions are invited in form of full and short papers, as well as poster and system presentations. Suggested topics include, but are not limited to:

- 3D object similarity and matching
- 3D object classification, indexing, and mining
- Similarity of non-rigid shapes
- Feature extraction, decomposition, and segmentation
- Multi-level representations for matching and retrieval
- Partial, part-in-whole, and many-to-many matching
- Matching under uncertainty and noise
- Semantics-driven 3D object retrieval and classification
- Sketch-based retrieval
- Query interfaces and search modalities
- Benchmarking issues
- Relevance feedback methods
- Active learning
- Generative/discriminative approaches in 3D object categorization
- Applications in multimedia, CAD, games, biometrics, e-science, e-learning, medicine, biology, and cultural heritage.

This year’s workshop will also feature the 6th Shape Retrieval Evaluation Contest (SHREC’2011). A separate call for participation will be issued later on. Extended versions of selected papers from the Workshop will appear, after a further review, in special issues of international journals. Selected papers from previous workshops have been published in Special Issues of The Visual Computer journal and The International Journal of Computer Vision published by Springer.

Important dates

December 1, 2010: Submissions due
January 20, 2011: Notification of acceptance
February 1, 2011: Camera-ready papers
April 10, 2011: Workshop takes place

For more information, please refer to the Workshop website at:
