Preface

These proceedings contain the papers presented in the State of the Art Report (STAR) sessions of the Eurographics 2006 conference held in Vienna, Austria, between the 4th and 8th of September 2006.

This year 15 high-quality submissions were submitted to the STAR track, and based on a full review process 6 of those were selected.

We wish to thank all those who submitted a STAR proposal, and also the numerous reviewers whose contributions made the selection process possible.
